

Enterphone™ 21

High-Definition 21-inch Touch Screen Telephone Entry System

■ ADVANCED

Web browser access for remote programming and management, vibrant HD touch screen, multi-language and personalized display for style, brand, or advertising

■ COMPACT

Integrates with other Enterphone products or Freedom by Identiv, enabling a single door to unlimited card reader door support with elevator control and multiple telephone entry points

■ SECURE

Network connectivity with TLS 1.2 over TCP/IP

Enterphone 21 by Identiv is the company's largest touch screen telephone entry system, providing a 21-inch high-definition (HD) touch screen. The Enterphone design maximizes the user interface experience while enabling a number of configurable features such as language, touch-screen display, and screensaver options.

Enterphone 21 is ideal for apartment buildings, condominiums or stratas, multi-use commercial and residential, office buildings, and gated communities. Enterphone 21 can be flush or surface mounted, enabling installation options to meet the aesthetic requirements of the customer's environment.

Benefits:

- Web browser administration allows for easy admin access from any PC on the LAN, as well as Internet administration via any securely authenticated device
- Being a networked device allows for standard IP security policies to be applied, such as TLS 1.2 encryption
- Enterphone panels support a subscribed phone line out-of-the-box, with NSL options available
- Support up to 7 languages
- Full color HD screen allows for fully customizable screensavers
- Camera support offers greater building security, allowing visitors and admin to view snapshots of log events (both placed calls and door release events)
- Supports both residential directories as well as business dropdown categories

Features:

- 21-inch full-color HD touch screen
- Residential or business listing formats with drop-down menus
- Unlimited names, card users, cards, schedules, and groups
- Dial via integrated touch screen or keypad
- Auto redial to alternate number
- Unlimited administrative users
- Full access, read-only, and no access administrative permissions
- Exportable log event history with filters for auditing and sharing
- Simple integration with third-party access control systems

Optional:

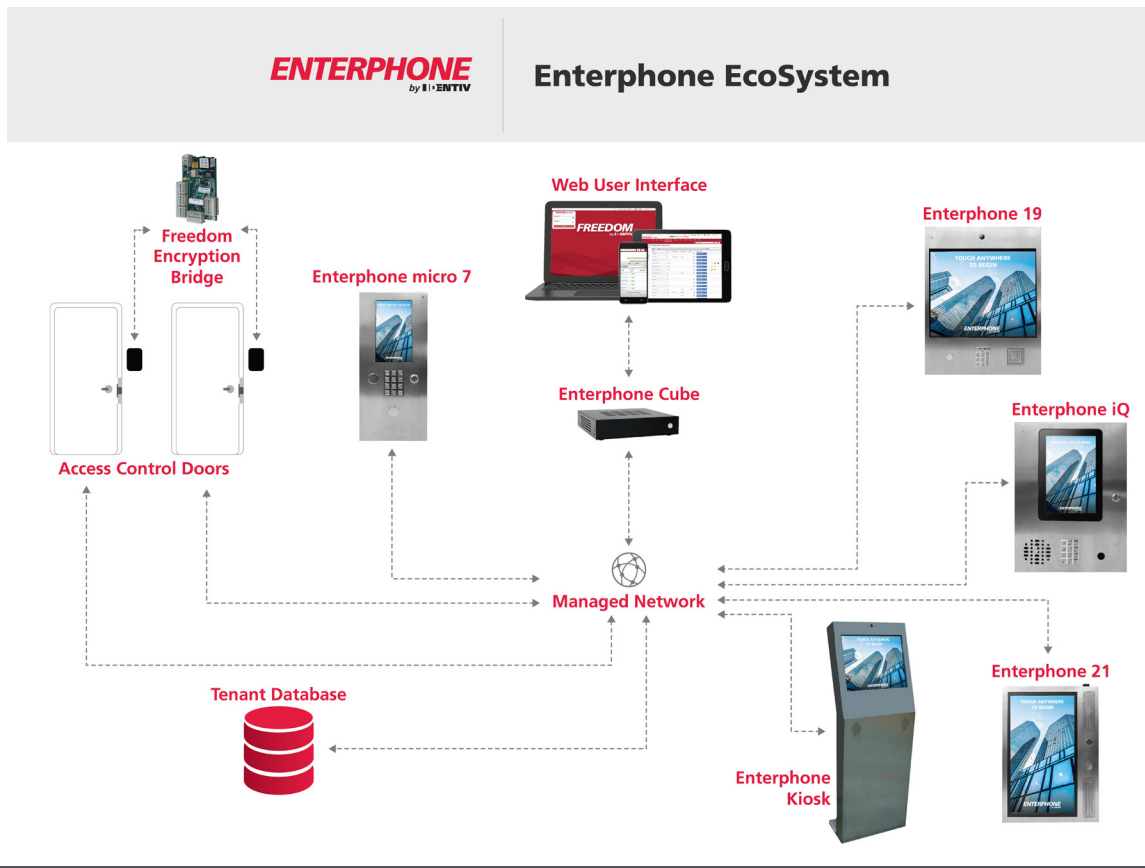

- Expands up to 16 readers with an Enterphone Cube, with an expansion option to get to 32 readers
- Supports up to two access control card readers with the purchase of a Freedom Encryption Bridge
- Camera support with image capture based on dial initiation and on door release
- Stainless steel backbox
- Hardware options include postal lock, trim ring, weather hood, and heater
- Flush mount kit for in-wall configurations
