

Enterphone™ iQ

High-Definition, Web-Browser Managed Telephone Entry System

■ ADVANCED

Web browser access for remote programming and management, multi-language, and personalized display for style, brand, or advertising

■ SECURE

TLS 1.2 encryption, rugged metal enclosure, and 10-inch HD screen

■ COST-EFFECTIVE

Affordable telephone entry system with simple path and integration to Freedom by Identiv

Enterphone iQ by Identiv is a mid-sized economical telephone entry system providing a keypad driven 10-inch high-definition (HD) screen. The iQ design limits installation real estate requirements while enabling all the standard and optional features of other Enterphone by Identiv systems.

Enterphone iQ is ideal for apartment buildings, condominiums or stratas, multi-use commercial and residential, office buildings, and gated communities. Enterphone iQ can be flush or surface-mounted, enabling installation options to meet the aesthetic requirements of the customer's environment.

Benefits

- Web browser access for remote programming/management
- Configurable screensaver to allow for customization to match any décor
- Multiple language support, up to seven languages
- Integrates with up to three additional Enterphone products
- Upgradeable to Freedom by Identiv, enabling single door to unlimited card reader door and elevator support, and advanced software defined security management

Features

- 10-inch full-color HD screen
- Residential or business listing formats with drop-down menus
- Unlimited names, card users, cards, schedules, and groups
- Dial via an integrated touch screen or keypad
- Auto redial to alternate number
- Unlimited administrative users
- Full access, read-only, and no access administrative permissions
- Exportable log event history with filters for auditing and sharing
- Simple integration with third-party access control systems

Optional

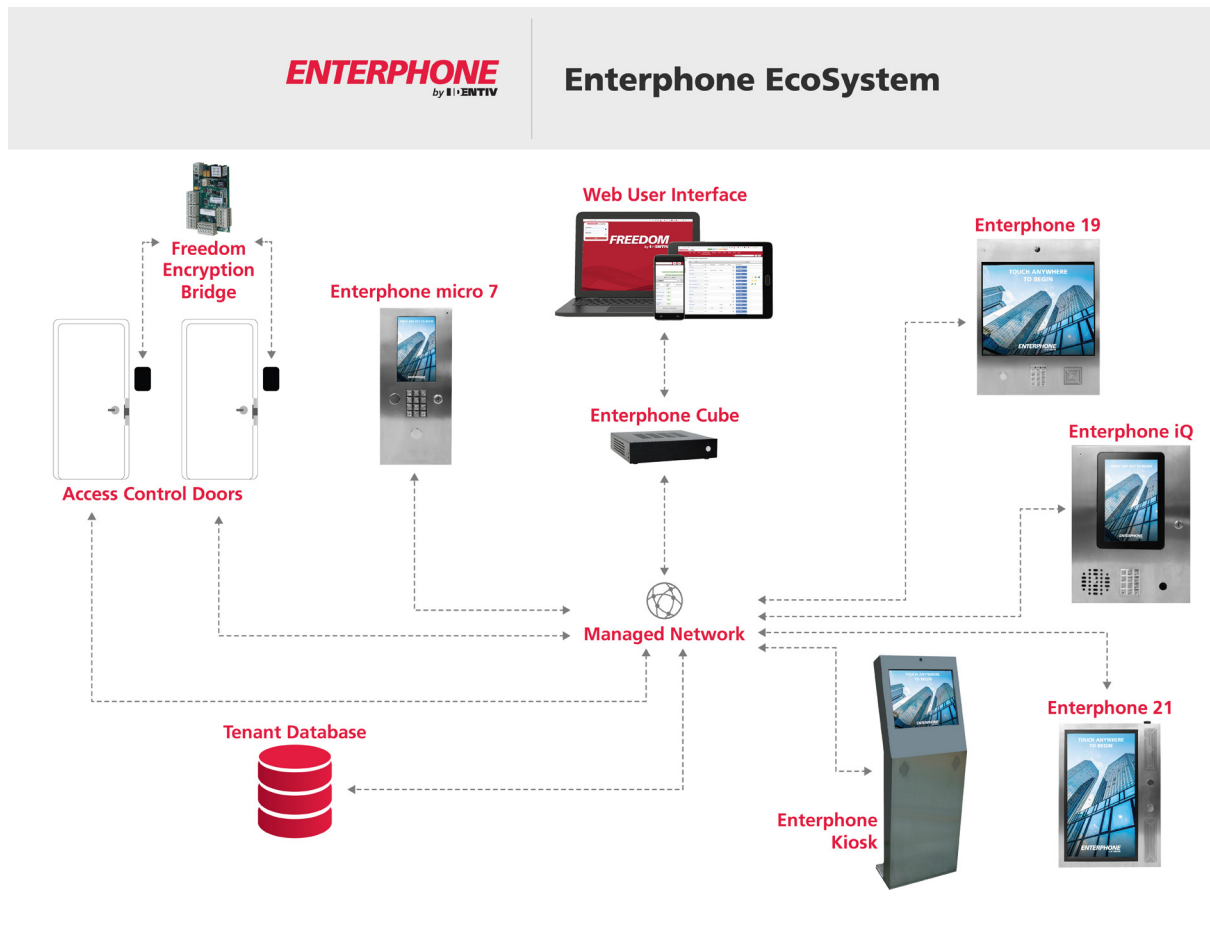

- Expands up to 16 readers with an Enterphone Cube, with an expansion option to get to 32 readers
- Supports up to two access control card readers with the purchase of a Freedom Encryption Bridge
- Camera support with image capture based on dial initiation and on door release
- Stainless steel backbox
- Hardware options include postal lock, trim ring, weather hood, and heater
- Flush mount kit for in-wall configurations
