

## Enterphone™ Kiosk

Stainless Steel Touch Screen Intercom

### ■ SECURE

Allows building tenants to communicate with visitors and grant or deny entry

### ■ INTEGRATED

Integrates with other Enterphone products and Freedom by Identiv

### ■ COMPLETE

Multiple panels can be connected for complete card access

Freestanding Enterphone Kiosks are ideal for entrances, lobbies, and gates. Enterphone Kiosks allow building tenants to communicate with visitors and grant or deny entry. Units can display residential or commercial building directory listings with a building-specific screen saver. Options include built-in cameras, card access, and elevator control. Multiple panels can be connected on a shared database or to central Freedom by Identiv for a total security management solution.

### Benefits

- Web browser administration allows for easy admin access from any PC on the LAN, as well as Internet administration via any securely authenticated device
- Being a networked device allows for standard IP security policies to be applied, such as TLS 1.2 encryption
- Enterphone panels support a subscribed phone line out-of-the-box, with NSL options available
- Support up to 7 languages
- Full color HD screen allows for fully customizable screensavers
- Camera support offers greater building security, allowing visitors and admin to view snapshots of log events (both placed calls and door release events)
- Supports both residential directories as well as business dropdown categories

### Features

- 19-inch full-color HD touch screen (custom sizes available upon request)
- Residential or business listing formats with drop-down menus
- Unlimited names, card users, cards, schedules, and groups
- Dial via integrated touch screen or keypad
- Auto redial to alternate number
- Unlimited administrative users
- Full access, read-only, and no access administrative permissions
- Exportable log event history with filters for auditing and sharing
- Simple integration with third-party access control systems

### Optional

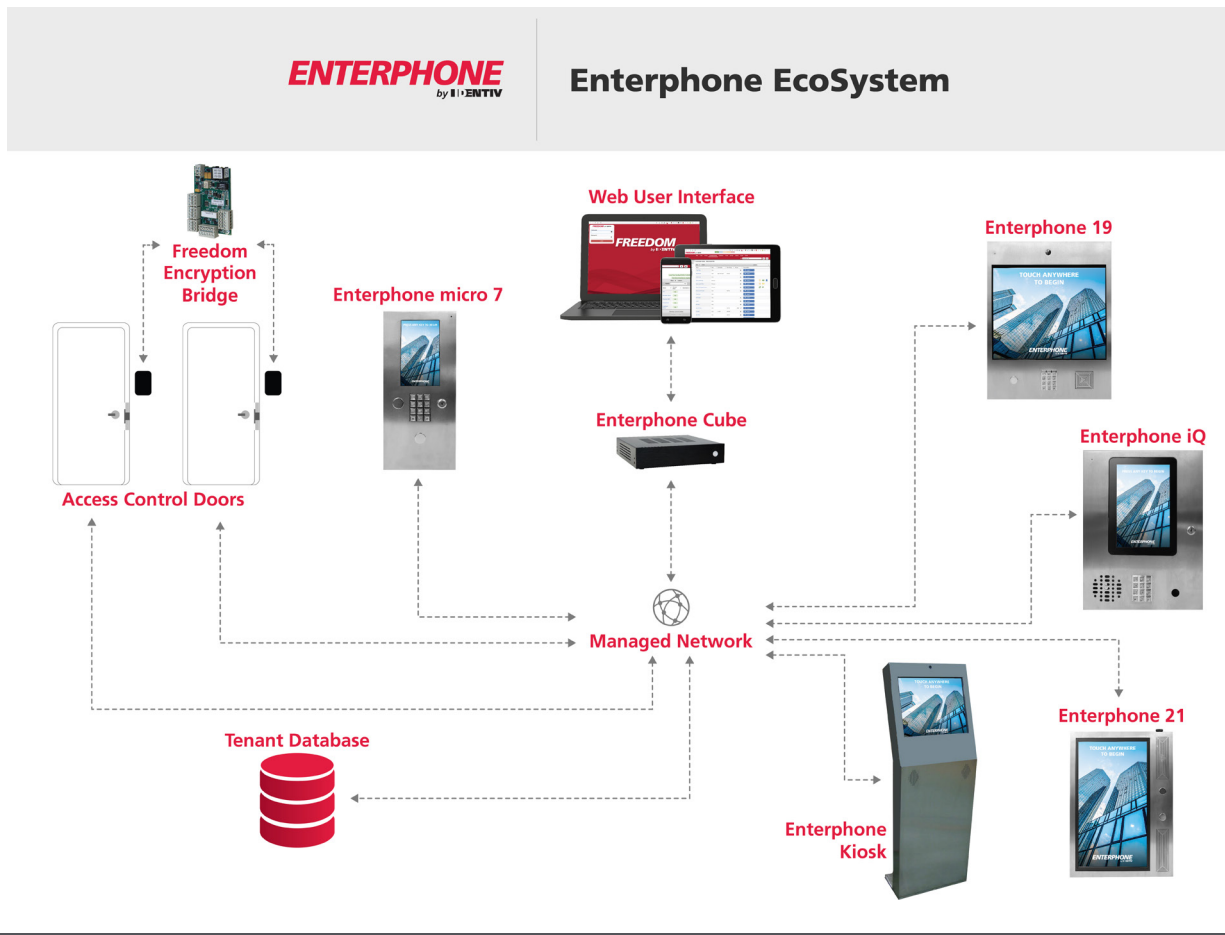

- Expands up to 16 readers with an Enterphone Cube, with an expansion option to get to 32 readers
- Supports up to two access control card readers with the purchase of a Freedom Encryption Bridge
- Camera support with image capture based on dial initiation and on door release
- Hardware options include postal lock, and heater
