

The Top Ten Reasons Identiv's Credentials Portfolio Is for You

1

A constant in the market

With almost 40 years of experience, Identiv is the name to trust when ordering any credential form factor (using Low Frequency 125 KHz, High Frequency 13.56 MHz and UHF 900 Mhz range).

2

Extremely competitive pricing

We're here to ensure you meet or exceed your existing card performance at a lower cost.

3

Fast turnaround

Produced and encoded at our Santa Ana, California facility, we average 24 – 48 hour ship times for orders of 1,000 cards or less.

4

Leading formats

With more than 35 different formats compatible with numerous physical access control systems (PACS), including Corporate 1000 and 2000®, we're guaranteed to have what you need.

5

Free samples

Try before you buy with free samples via free ground shipping in 2 – 3 days.

6

Quality products

All Identiv credentials include a lifetime warranty for material defects and workmanship; we will always stand behind our products (plastic cards, keyfob, sticker, wristband and inlays).

7

Credentials tracking

At no additional charge, the Next-Up Program provides protection against card duplication.

8

Full-service

Identiv's uTrust Cards Service Bureau provides centralized issuance for small-to-medium businesses in need of plastic credential card personalization.

9

Custom printing

Choose Identiv or third-party card stock personalization with optional high-quality, four-color artwork custom printing and encoding.

10

Customer service

We provide prompt, accurate, and courteous service with an emphasis on speed. We are proud to be second to none!
