

# 3VR BY IDENTIV VISION POINT™ FOR HEALTHCARE

3VR by Identiv's Vision Point™ revolutionizes the way in which video is stored, managed, searched, analyzed, and correlated with access control, alarm panel, and other systems.

## **3VR transforms the capabilities of security teams and hospital staff by allowing them to:**

**Solve** liability cases, fraud and identity theft faster with patented technology that searches weeks of video in seconds

**Protect** patients, staff, and property from unauthorized access events, patient wandering and fraudulent insurance claims

**Grow** revenues by changing the way patient and staff interaction is observed, analyzed and precisely applied to operations, all while reducing hospital liability and delivering a higher level of care

## **SOLVE LIABILITY CASES, FRAUD AND IDENTITY THEFT FASTER**

3VR protects facilities and staff, reduces losses and limits liability by adding a robust new layer of visual security to security infrastructure:

- Rapidly investigate incidents and provide insights to hospital administration and law enforcement with high-quality video capture and video search
- Reduce pharmacy, supply and asset loss when utilizing RFID integration
- Deter patient identity theft and prevent erroneous claims with 3VR Facial Surveillance
- Protect public health by monitoring practices in medical preparation environments
- Solve fraudulent insurance claims in your parking garage by searching on license plate, color or size of the vehicle

## **PROTECT PATIENTS, STAFF AND ASSETS BETTER WITH VIDEO INTEGRATION WITH KEY HOSPITAL BUSINESS AND SECURITY SYSTEMS**

With 3VR, loss prevention and security professionals can quickly search years of stored video, and correlate visual intelligence with existing enterprise systems to:

- Protect infants with video integration with infant alerting and abduction systems

- Protect against patient elopement with video that allows security staff to respond quickly and more effectively
- Alert and rapidly respond when patients wander beyond an established area or through an exit and use video to find location quickly
- Protect restricted areas and flag unauthorized entries to facilities faster with integrated video with access control systems to monitor restricted area entry and exit
- Protect valuable assets by integrating video with real-time asset tracking systems

## **GROW PATIENT SATISFACTION BY OPTIMIZING STAFFING, TRAINING AND PATIENT CARE**

3VR allows healthcare facilities to improve patient care and overall satisfaction by revealing unprecedented new insights into staff behaviors and operational performance:

- Optimize staffing decisions to decrease patient wait times with patented video analytics
- Monitor waiting times of patients to meet service level goals
- Improve patient service with integrating video with training programs for hospital staff
- Improve staff retention programs by investing in video surveillance security to help keep them safe

# 3VR BY IDENTIV SOLUTIONS FOR HEALTHCARE

## 3VR'S VISION POINT™ SEARCH

3VR's Vision Point™ is powered by our patented, award-winning search engine, which drives ROI by delivering instant video search results.

## 3VR CAMERA SUPPORT

3VR eases the transition from analog to IP with hybrid solutions.

- Analog
- PTZ
- IP
- Megapixel

3VR's Video Intelligence Platform™ is compatible with products made by American Dynamics, Axis, Arecont Vision, Extreme CCTV, IQinvision, Panasonic, Pelco, SONY and other leading manufacturers. 3VR's open platform facilitates the easy addition of products from other companies.

## 3VR'S VISION POINT™ ANALYTICS

Hospitals can solve crimes, dynamically recognize threats, and optimize their customer service and marketing operations using 3VR VIP analytics including:

- Facial Surveillance
- License Plate Recognition
- Advanced Object Tracking
- People Counting
- Dwell and Loitering
- Queue Line Analysis
- Customer Not Present

In addition, investigators can use 3VR's patented Similarity Search™ to identify and track thieves and vehicles in cases across multiple locations.

## 3VR'S VISION POINT™ ENTERPRISE APPLICATIONS

3VR's Enterprise Applications provide central system administration and include configuration templates that can be applied across a hospital's systems and infrastructure. With 3VR, roles, users, and permissions are also centrally managed.

In addition, 3VR's optional Redundant Array Independent Disk (RAID) Enterprise Health Monitoring prevents video or data loss, and alerts operators to malfunctioning cameras, failing hard drives, and unusual intervals in data receipt.

## 3VR'S VISION POINT™ DATA INTEGRATION

Security professionals can investigate, respond to and evaluate threats by integrating facial recognition and other alerts with POS, access control and alarm systems, and RFID and sensors.

## 3VR'S VISION POINT™ APPLIANCES

3VR appliances are a range of robust, scalable appliances that record, store, index, search and manage video, while running 3VR's award-winning suite of analytics, integration tools, and applications.

Identiv (NASDAQ: INVE) is a global provider of physical security and secure identification. Identiv's products, software, systems, and services address the markets for physical and logical access control, video analytics and a wide range of RFID-enabled applications. Customers in the government, enterprise, consumer, education, healthcare, and banking, retail, and transportation sectors rely on Identiv's access and identification solutions. Identiv's mission is to secure the connected physical world: from perimeter to desktop access, and from the world of physical things to the Internet of Everything.

Identiv has offices worldwide. Addresses and phone numbers are listed at [identiv.com/contact](http://identiv.com/contact). For more information, visit [identiv.com](http://identiv.com) or email [sales@identiv.com](mailto:sales@identiv.com).
