

10

Reasons to Choose Enterphone

1

Intelligent Telephone Entry:

The Enterphone portfolio features intelligent, integrated residential telephone entry systems and visitor management solutions.

2

Any Residential Facility:

Solutions are available for every type of residential and mixed-use property, from small apartment buildings to large multi-family, multi-tenant condominium high-rises.

3

Software-Driven Perimeter:

Cyber-centric Enterphone integrates with Freedom Access Control and third-party Wiegand-based access control systems.

4

Anywhere Operations:

Grant the right access to the right people at the right time from anywhere in the world with 24/7 web-based remote access control.

5

Advanced Access Control:

Enterphone Cube hosts the web-based software and allows full-access, view-only, and no-access administrative permissions by parameter, an open interface to HR and IT database(s), and forced entry and door ajar monitoring.

6

Scalable:

Grow to multiple panels, buildings, and locations; with the addition of the Enterphone server, it is easy to manage from a single interface and location.

7

Flexible Out-of-the-Box:

Models are available with a touch screen or non-touch, audio and visual screen prompts, unlimited users/tenants, customizable screensaver, up to seven languages, and no-phone-line option using existing copper wiring to call units directly.

8

Designed for High Traffic:

Each panel is encased in rugged metal; black, stainless steel, and brushed chrome finishes are available.

9

Fits Where You Need It:

Enterphone is available in a variety of panels, from a 10-inch screen version to a 21-inch model.

10

Highly Secure and Reliable:

Standard network IP securities include TLS encryption and SSL to eradicate security vulnerabilities.
