IDENTIV

3VR 1100-Series
Network Video Recorders

Easy to install, set up and use, Identiv's 3VR 1100-Series network video recorders (NVRs) are an efficient and affordable solution for powering small installations.

Identiv's 3VR 1100-Series network video recorder (NVR) is a powerful recorder packed into a compact case. The 1100-Series is a reliable solution using an enterprise-class hard drive and low power and has the ability to connect to a 3VR Enterprise Server for further expandability.

Pre-loaded with VisionPoint™ VMS video management software — including 3VR's motion-based, award-winning analytics, which is the backbone of 3VR's powerful forensic search capabilities — the 1100-Series offers seamless integration with point of sale (POS), access control, ATM, teller, and other external systems, making it a powerful solution

providing intelligence and the ability to find suspects and evidence fast. Whether using as a standalone NVR or with 3VR's Enterprise Server, the 1100-Series is an efficient, affordable solution.

- Case Management, Forensic Search, Live Monitoring, and much more (see VisionPoint™ VMS data sheet)[2]

- Connect and view 3VR system from anywhere using 3VR Mobile Investigator, available on Android Play Store and iOS App Store

Compact Recording Solution

- 1.7 x 7.7 x 7.7 in

- Includes two (2) IP camera licenses[1]

- Supports IP, megapixel, 360p, and PTZ cameras for maximum flexibility

- High-quality audio and video storage using MPEG-4 or H.264 compression

- 1 TB storage included in a compact case that can fit into a small space

Efficient and Affordable

- Support for up to 12 cameras

- Contains many of the same advanced features as other 3VR NVRs

- High-heat operational temperature (40°C), non-operational (70°C)

- Three-year warranty on hardware

Seamless Integration

- Most major camera manufacturers connect to 3VR systems

- Use as part of a large enterprise system, or as a standalone NVR (enterprise server optional)
