

See what our customers are saying about

Thursby Mobile Security

It is almost therapeutic when you have questions to get that level of personal support in conjunction with the technical expertise to answer any question with the details to understand the tech behind it. GREAT JOB!!! MANY THANKS FOR THE GREAT SUPPORT OVER THE YEARS! GREAT COMPANY!!! KEEP IT UP!!!!!!

Drew

Uses PK7 with lightning connection

**I am really happy with the PKard reader,
the Sub Rosa browser, and the ease of
accessing encrypted DoD webmail and
other CAC-enabled sites on my iPad.**

C.W.

Uses PK7 with lightning connection

**This is a perfect product for individuals
frequently TDY/TAD or deployed!**

Mike

Uses PK7 with lightning connection

I have been using the PKard mobile reader since 2012 and have been very pleased with the capability and Thursby technical support.

The new Sub Rosa App and integrated case are life-changing. Sub Rosa is a great interface and has enabled me to read digitally signed and encrypted mail efficiently on the go!

Katie

Uses AN03 case reader for Samsung Galaxy S7

Amazing! It works so well, I've been showing it to everyone! Great product and excellent service.

Xavier

Uses PK7 with lightning connection

I've used my Thursby reader quite a bit and it's been a game-changer in terms of being able to telecommute.

Kimberly

Uses PK7 with lightning connection

**The product works as expected. I am
delighted and the tech support is great.**

Jeffried

Uses PK7 with lightning connection

They worked flawlessly.

R.S.

Uses PK7 with lightning connection

As a government employee, I often need access to email while on the road. I'd much rather use my own device. This allows me the ability to use my own device while accessing my email.

I've been a long time user. They are quick to implement new features, respond to feedback, and fix issues when they arise. Customer service is among the best I've seen.

Sub Rosa App Store Review

Both PKard for Mac used with my MacBook Air and Sub Rosa used with my iPhone reader are working great. No issues.

Robert

Uses PKard for Mac and PK7 with lightning connection

**Your customer service is awesome.
Thank you very much for your support.**

Anthony
Uses PKard for Mac

I've been very impressed with Thursby's customer service and will definitely recommend your products to my colleagues.

Jordan

Uses PK7 with lightning connection

**I have received my PKard reader.
Everything works perfect. Great product!**

Timothy
Uses PK7 with lightning connection

My PKard reader works great and I have had no issues. Up and running in less than 10 minutes.

Laura

Uses PK7 with lightning connection

You offer an amazing product for Mac users and your customer support is a role model for other companies to imitate.

Robert

Uses PKard for Mac

**I'm active duty military and a huge fan
of your Thursby CAC readers.**

**I use them almost daily with my iPad,
iPhone and Sub Rosa.**

Keep up the great products!

Nate

Uses PK7 with lightning connection

I found myself in a terrible situation with my Mac on a Windows network and our IT department was nowhere in sight. I was basically told to get a Windows machine to solve my problem.

Michael went above and beyond numerous times to help me get my tower up and running again. He was incredibly polite and patient with me, he solved ALL my issues, without him I would not be able to do my job today. Great guy, our IT department could learn so much from him, talk about customer service, just amazing!

Uses ADmitMac

I have one of your lightning CAC readers and love it. Showed it around at work and apparently now they're buying them for everyone!

M.J.

Uses PK7 with lightning connection

We've been using your readers for about a year and absolutely love them!!

We've been spreading the word to anyone who will listen.

Joshua

Uses PKard Readers on both iOS and Android

My PKard Reader works great! Wish I had bought this product much sooner!

Stephen A. (former Army Brigade and Battalion S6)
Uses PK7 with lightning connection

My husband received his PKard reader a couple of days before his deployment, which is awesome!

Thanks for rearranging things so we could overnight it! He said, 'he loves using it'!

Larissa

Uses PK7 with lightning connection

I got the new reader today and it works perfectly. Super simple.

Kyle

Uses PK7 with lightning connection

The PKard reader I just received for my iPhone is awesome! Increased flexibility, very easy to use and the app is simple and effective! Great product!

Les

Uses PK7 with lightning connection

I have had no problems with my PKard Reader at all. It is super easy to use and a great asset to allow me to work outside the office. Thank you for developing this great product.

Josh

Uses PK7 with lightning connection

**Best thing ever. Wish I would have known
about these sooner!**

Tim

Uses PK7 with lightning connection

I had no issues setting up my PKard reader and I use it every day. Thursby has always been my go-to for all things CAC related.

Adrian

Uses PK7 with lightning connection

My PKard reader has been such a timesaver! It was plug and play, so no hiccups or frustrations. I use it both for my iPad and iPhone. Thank you!

CH (CPT) Olson

Uses PK7 with lightning connection

I just purchased your software and was checking my government email within ten minutes of purchasing. I will be recommending Thursby by Identiv and your products to everyone that I know who uses Mac products.

Tiane

Uses PKard for Mac

**Your PKard Reader is such a handy tool.
I have shared it with other airmen who
wanted to know how they could get one.
Great option for staying connected.**

Col Amy S. Swets

Uses USB-C with Sub Rosa on Android

Finally. This is great.

Robert

Uses micro-USB reader with R2S on Android

WOW! Thanks so much! Thursby by Identiv is awesome! I really appreciate your assistance. Every time I have called Thursby, I have been assisted immediately, with positive outcomes every time. I have never encountered a problem with Thursby, and highly recommend it to all of my military and DoD counterparts.

Marc

Uses PKard for Mac

I received my PKard Reader and it is awesome. It is the best thing since sliced bread!
